Mopar Introduces New At-home Plug-in Wall Chargers for Jeep® 4xe Models and Chrysler Pacifica

- New factory-backed, Wi-Fi-capable, Level 2 (240-volt), at-home, hybrid-electric-vehicle, wall charger units help power Jeep® Wrangler 4xe, Jeep Grand Cherokee 4xe and Chrysler Pacifica Hybrid models
- Available now in the United States for \$599 manufacturer's suggested retail price at the Mopar parts and accessories [eStore](#) or local Jeep brand or Chrysler dealerships
- Full charge in just over two hours; new units charge more than six times faster than standard Level 1 (120-volt) charger unit

January 18, 2022, Auburn Hills, Mich. - At-home charging for Jeep® 4xe and Chrysler plug-in hybrid electric vehicles is now easier with the introduction of new, Wi-Fi-capable, Level 2 (240-volt) charging units from Mopar.

Available in plug-in or hardwired versions that supply 32 amps/7.7kW (maximum) of power, the new charging units provide a full charge in just over two hours, up to six times faster than standard Level 1 (120-volt) chargers. In addition, new Wi-Fi connectivity gives customers the ability to monitor and control charging any time and anywhere via a mobile app and web portal, saving time and money.

"Our new, factory-backed, at-home, Level 2, plug-in charging units offer a quick, seamless charging solution for Jeep 4xe and Chrysler Pacifica Hybrid owners," said Mark Bosanac, North America vice president, Mopar service, parts & customer care. "At Mopar, we'll continue to enhance the customer experience and expand our electric-vehicle portfolio of accessories."

Each new charging unit is Energy Star®-certified and smart-grid optimized for a balance between availability, efficiency and cost to help customers reduce energy costs by charging at low-rate times and participate in energy credit programs where available.

Portable, lightweight, lockable and weatherproof for indoor/outdoor charging, each unit is universally compatible and backed by a 3-year warranty. U.S manufacturer's suggested retail price is \$599. New charging units may be ordered with a Jeep or Chrysler-branded faceplate.

See the Mopar parts and accessories [eStore](#) or Jeep brand or Chrysler dealerships in the United States for more details.

Installation Services Available From Qmerit

Mopar is teaming with the expert installation service company Qmerit to offer convenient installation of Level 2 chargers within the United States. Qmerit-certified installers are licensed, insured and rigorously screened to meet exacting standards and can offer service if there is ever a need. See [Qmerit/Jeep](#) or [Qmerit/Chrysler](#) for more details.

Jeep Grand Cherokee 4xe

The all-new [2022 Grand Cherokee 4xe](#) is the first Grand Cherokee to offer plug-in hybrid capability. The 4xe propulsion system combines two electric motors, a 400-volt battery pack, 2.0-liter turbocharged, four-cylinder engine and TorqueFlite eight-speed automatic transmission for maximum efficiency and capability. Overall, the 4xe system delivers 375 horsepower and 470 lb.-ft. of torque. The Grand Cherokee 4xe, targeting an estimated 25 miles (40 km) of all-electric range, returns an estimated 57 miles per gallon-equivalent (MPGe) and has an estimated total range of more than 440 miles (708 km). The Jeep Grand Cherokee 4xe is scheduled to arrive in North America early this year

and in global markets later in 2022.

Jeep Wrangler 4xe

The new [Jeep Wrangler 4xe](#) delivers 21 miles of nearly silent, zero-emission, electric-only propulsion and is EPA rated at 49 MPGe, making it commuter friendly as an all-electric daily driver without range anxiety. The hybrid powertrain combines a high-tech, 2.0-liter, four-cylinder, turbocharged engine with two electric motors, a high-voltage battery pack and the TorqueFlite eight-speed automatic transmission. Benchmark 470 lb.-ft. of torque in the Wrangler 4xe arrives instantly on demand from the driver. The powertrain also delivers fuel-saving, seamless, start-stop operation of the engine.

Chrysler Pacifica Hybrid

The [Pacifica Hybrid](#), still the first and only plug-in hybrid minivan, delivers more than 80 MPGe in electric-only mode, an all-electric range of more than 30 miles and a total range of more than 500 miles. Pacifica Hybrid features a Stellantis-designed, innovative dual-motor eFlite electrically variable transmission (EVT) paired with a specially modified version of the 3.6-liter, Pentastar V-6, gasoline engine that alleviates range anxiety and delivers peace of mind to customers. Pacifica Hybrid is designed to offer a seamless driving experience, with no need for the driver to select between electric and hybrid modes.

Mopar

Mopar is the global name for Stellantis genuine parts and authentic accessories.

A simple combination of the words MObile and PARts, Mopar offers exceptional service, parts and customer-care. Born in 1937 as the name of a line of antifreeze products, Mopar has evolved over more than 85 years to represent both complete vehicle care and authentic performance for owners and enthusiasts worldwide.

Mopar made its mark in the 1960s during the muscle-car era with performance parts to enhance speed and handling for both on-road and racing use. Later, Mopar expanded to include technical service and customer support, and today integrates service, parts and customer-care operations in order to enhance customer and dealer support worldwide.
